

B.A. or B.S. in _____

Student's Name _____

From _____

Entrance Date _____

The Department of Natural Sciences and Engineering Technology has designed a Post-Baccalaureate program leading to the Bachelor of Science degree with a major in Biotechnology. This program, requiring a total of thirty (30) credits make it possible for students with Baccalaureate degrees in other areas to complete requirements in a second field with a minimum expenditure of time. This makes the programs attractive to the mature student because he/she can utilize his/her past education and experience.

PREREQUISITES TO THE PROGRAM

___	BIOL	216	Introductory Microbiology	4
___	BIOL	222	Introduction to Genetics	4
___	CHEM	221	Organic Chemistry	3
___	CHEM	222	Organic Chem/Biochemistry	3
___	MATH	175	Elementary Statistics	3
___	CMPS	___	_____	3
			100 level	

PROGRAM REQUIREMENTS

30

___	BIOL	350	Molecular Cellular Biology	4
___	BTEC	300	Receptors, Signaling Pathways and Cellular Control Mechanisms	3
___	BTEC	310	Emerging Life Science Tech.	3
___	BTEC	350	Genomics and Proteomics	3
___	BTEC	400	Animal Modeling of Disease	3
___	BTEC	410	Biotechnology Laboratory I	2
___	BTEC	420	Biotechnology Laboratory II	3
___	BTEC	450	Drug Discovery and Devel.	3
___	BMGT	101	Introduction to Business	3
___	CMPS	204	C Prog. for Sci. and Tech.	3
